

LUXE *Satin*TM
High Performance Tire Treatment

Keep your customers' tires looking like they just left your shop, with enhanced UV protection and fresh detail appearance for up to 50+ washes

LUXE AUTO TECHNOLOGIES LLC

LUXE *Satin*™
High Performance Tire Treatment

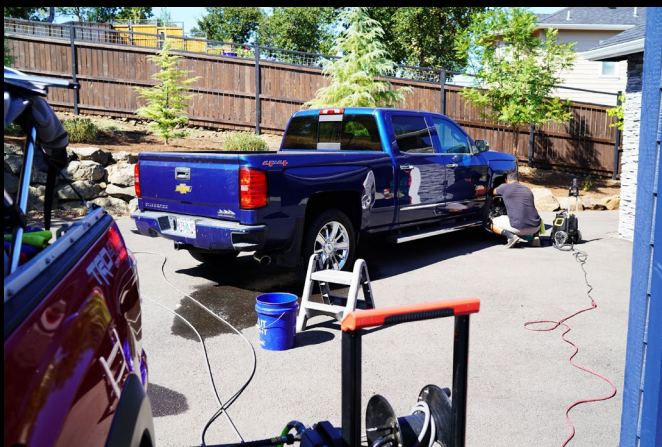

Applying Luxe Satin™ tire during your detail creates customer value and long-term satisfaction. Luxe Satin™ keeps your customers' tires looking new for up to 50+ washes by chemically bonding with the tire.

How the program works:

- Luxe Satin™ application during your detail creates an upsell opportunity.
 - Charge your customer (your option) for applying Luxe Satin™.
 - Includes (your option) a three-ounce bottle (less application amount) of Luxe Satin™.
 - Apply Luxe Satin™ until you reach the desired appearance (1-1/2 oz). Your customer keeps the remainder for touch-ups (your option).
-

Customer benefit/value:

- Applying Luxe Satin™ saves your customers' time, money and effort during routine washes while maintaining the fresh detail appearance.
- Provides lasting appearance for up to 50+ washes.
- Increases tire health (Technical Data Sheet).
